PROFESSIONAL SUMMARY

I'm a Full Stack and Mobile App Developer with over 3 years of experience building scalable, high-performance digital products. From dynamic websites to robust mobile apps and backend systems, I deliver end-to-end solutions that help businesses grow. My strength lies in combining Angular, Ionic, and PHP (CodeIgniter) to create seamless user experiences backed by strong logic and APIs.

CORE COMPETENCIES

1. Frontend: Angular, HTML, CSS, TypeScript, jQuery, Bootstrap
2. Backend: PHP (CodeIgniter), MySQL
3. Mobile: Ionic, Capacitor
4. Other Tools: Firebase, Git, REST API, MongoDB
5. CMS & Design: WordPress, Adobe Photoshop
